Economic Consultant

We are a micro-economics consultancy. We advise clients on a number of issues they are dealing with such as competition, regulation, competition and strategy. We work across Europe and help clients understand their markets to decide how best to respond to the conditions they face.

You will work in areas such as market investigations, mergers and acquisitions.

You will be involved in producing reports to send to the regulatory authorities and undertake the quantitative and qualitative research and analysis that lies behind these reports.

You will have:

- have first class analytical skills
- an ability to think strategically about issues
- excellent communication skills.
- be able to work well in teams in order to deliver high quality output on time to clients.

For this job you will need to demonstrate your analytical skills clearly and your ability to work with other and present your ideas.

We explained the difference between micro and macro economics in Chapter 1.

We examine the possible actions a government might take to improve competition in chapter 12.

We examine takeovers and mergers in chapter 10.
